SHAPE PROGRAM VIDEO

A Brief History

- Started in 2008
- To SHAPE or not to SHAPE?

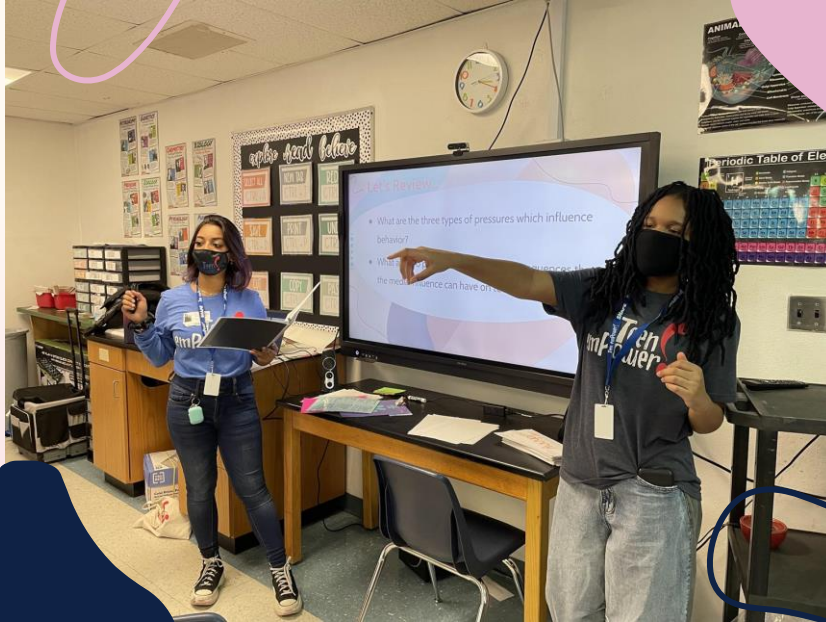

Teen Empower

I think that this was an exciting program not just for myself but for other people to. I believe every person should know what are some of the reasons behind sex and why people feel that they have to impress somebody by doing uncomfortable things. I feel that if we could do this more often a lot of people will reflect on what they do and how to be aware.

PS. Thanks for what you did really appreciate it. I learned a lot and it helped me on my decisions
