Definitions: Births to Teens includes the number of live births by age range, with rates representing the number of births per 1,000 females in each age range. Birth number totals less than five are suppressed for confidentiality and noted by a small dot. Where the numbers are too small to calculate a birth rate, it is noted by the same designation. County birth numbers reflect the mother's county of residence.

Data Source: Oklahoma State Department of Health (OSDH), Center for Health Statistics, Health Care Information, Vital Statistics 2023 on *Oklahoma Statistics on Health Available for Everyone (OK2SHARE)*, accessed at <http://www.health.ok.gov/ok2share> on Sept. 23, 2024. Population data is collected from U.S. Census Bureau's Population Estimates for specific years.

Footnotes: The state birth total will include births for which the county of residence was not known. Also, this chart does not include the number of births to girls, aged 10-14; birth rates for that age range are not calculated, as the numbers are far too small. The general teen birth rate represents ages 15-19.
